

# Southampton Sailing Week

Southampton Sailing Week is the perfect opportunity to get an exciting date in your 2021 diary

# Southampton Sailing Week

My name is Chris Rees and I am the Event Director for Southampton Sailing Week. We know 2020 hasn't been plain sailing for most people but, have no fear – after a storm there is always a rainbow!

Southampton Sailing Week is the perfect opportunity to get an exciting date in your 2021 diary - get your team out on the water, entertain some clients and have a great day out in Southampton.

We begin the day with a lovely light breakfast at Harbour Hotel before heading down to our brand new fleet of Sunsail 41.0 yachts moored in Ocean Village. There is a team brief, kitting up and then you head out into Southampton Water to get the sails up and some practise in before racing begins!

With our 12 matching yachts out on the water, its all down to the teams new-found skills out on the water to determine who will win. All the racing is under the guidance of a fully qualified Skipper and First mate who will be there to teach you the ropes and ensure your team and clients have a great time on the water.

Thank you for taking the time to read this. We are taking deposits from now for next July's event. If you have any questions, would like to chat further or you would be interested in reserving your yacht, then please do get in touch. I love my sailing and can't wait for your team to experience it too.

I hope this is of interest and please do get in touch if you would like more information or to book on,

Happy Sailing,

Chris Rees  
ReesLeisure

P.S Check out the video on [www.SouthamptonSailingWeek.co.uk](http://www.SouthamptonSailingWeek.co.uk) to see what it's like on the water!

# Exciting racing, great team building!

A fun day with a great chance to meet other businesses with fantastic team building opportunities.

## The Gallagher Cup

Thursday 8th July 2021

## Dutton Gregory Property & Legal Cup

Friday 9th July 2021

We took our clients out on our yacht this year and we've already seen the business relationship greatly improved following this fantastic day out. Really well organised and can't wait to take part again!

Jason Asser  
Managing Director at  
Thermal Transfer Solutions

At Wessex Heartbeat we truly believe that your support is your future. Heart Disease is still one of the leading causes of death in the UK and with over 2.3 million people in the UK living with heart disease it touches almost every one of us in some way.

Wessex Heartbeat has been here for almost 30 years in supporting those with heart disease and just as importantly their families, through support and funding of the Wessex Cardiac Centre, (making it one of the leading centres in Europe), their staff and of course our amazing Heartbeat House. We are instrumental in helping everyone in the Wessex region adjusting to life with a heart condition.

Wessex Heartbeat, like so many other amazing charities has been heavily impacted by COVID19, it has affected our income, our events, and how we deliver our services. It comes as no surprise that our income fell by almost £300,000 in 2020. However, we will not allow this pandemic to stop us delivering our support or services to the community and have committed to spend £400,000 in support of our astonishing Cardiac Centre, our medical staff, and our community in 2021.

In the first two weeks in January, we funded £60,000 for educational videos in support of our patients, which will support communication and understanding of their procedures. We have funded a £40,000 grant in the recruitment of a Heart Specialist Nurse to support our community and have also approved and paid for some cutting –edge research which could lead to a single blood test that can identify patients at risk of developing angina, and the development of medications that could reduce the development of coronary plaque.

We have started the refurbishment plan of Heartbeat House by committing £80,000 and are planning our Healthy Living Centre, which will support hundreds of cardiac patients and their families in their recovery and support.

This is a very exciting time for us at the charity, the challenge will continue while the pandemic impacts on us all, and we cannot continue to do all our work without your support.
